EXPERIMENT 1: FLIGHT RESERVATION SYSTEM

AIM

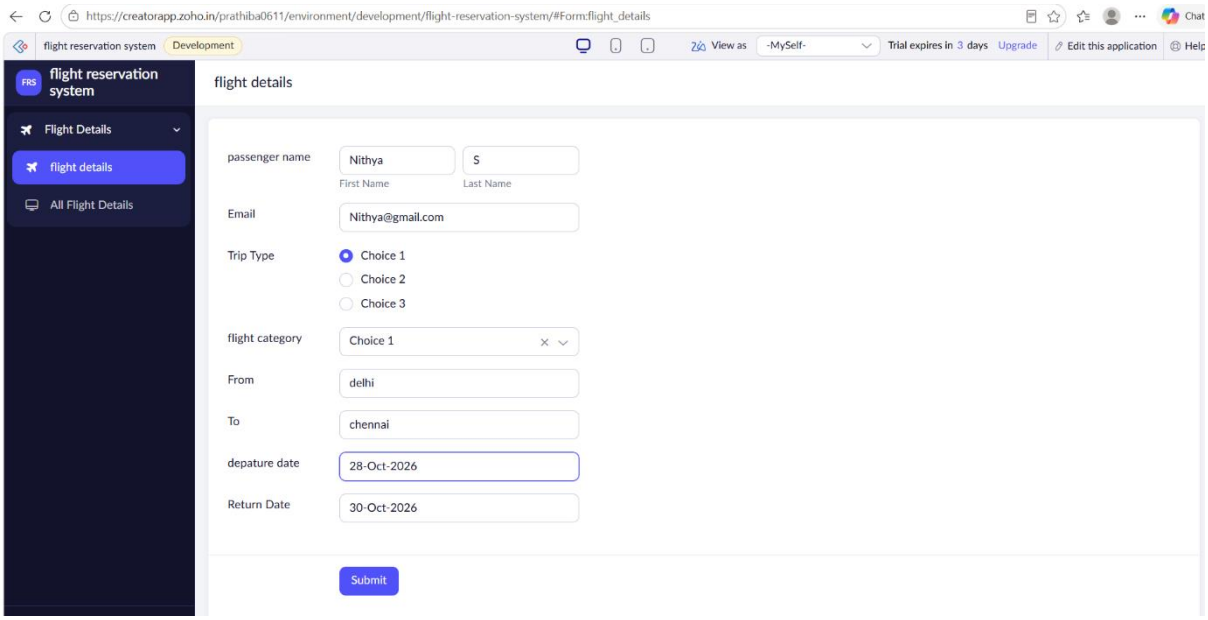

To create a simple cloud-based Flight Reservation System using Zoho Creator to demonstrate Software as a Service (SaaS).

PROCEDURE

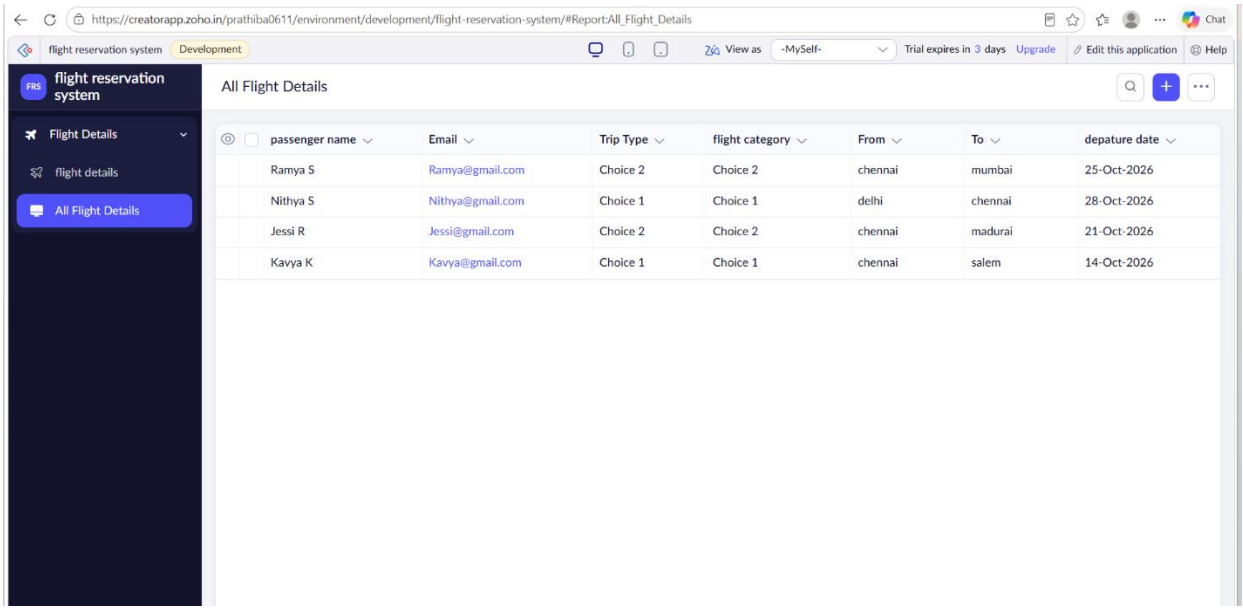

1. Open Zoho Creator and log in using a Zoho account.
2. Create a new application named **Flight Reservation System**.
3. Create a form named **Flight Booking Details**.
4. Add the required fields such as Passenger Name, Phone Number, Trip Type, From, To, Departure Date, Return Date, Travelers, Travel Class, Fare Type, and Flight Type.
5. Configure the Trip Type dropdown with One Way and Round Trip.
6. Configure the Travel Class dropdown with Economy, Business, and First Class, and the Flight Type dropdown with Domestic and International.
7. Configure the Fare Type dropdown with suitable options such as Regular Fare and Student Fare.
8. Save the form and create a table report named **Flight Booking Records**.
9. Enter sample flight booking details, submit the form, and verify that the records appear in the report.

IMPLENTATION

INPUT:

OUTPUT:

RESULT:

Thus, a cloud-based Flight Reservation System was created using Zoho Creator, and the flight booking form and report were used to demonstrate the Software as a Service (SaaS) model.
