EXPERIMENT 2: PROPERTY BUYING AND RENTAL SYSTEM

AIM

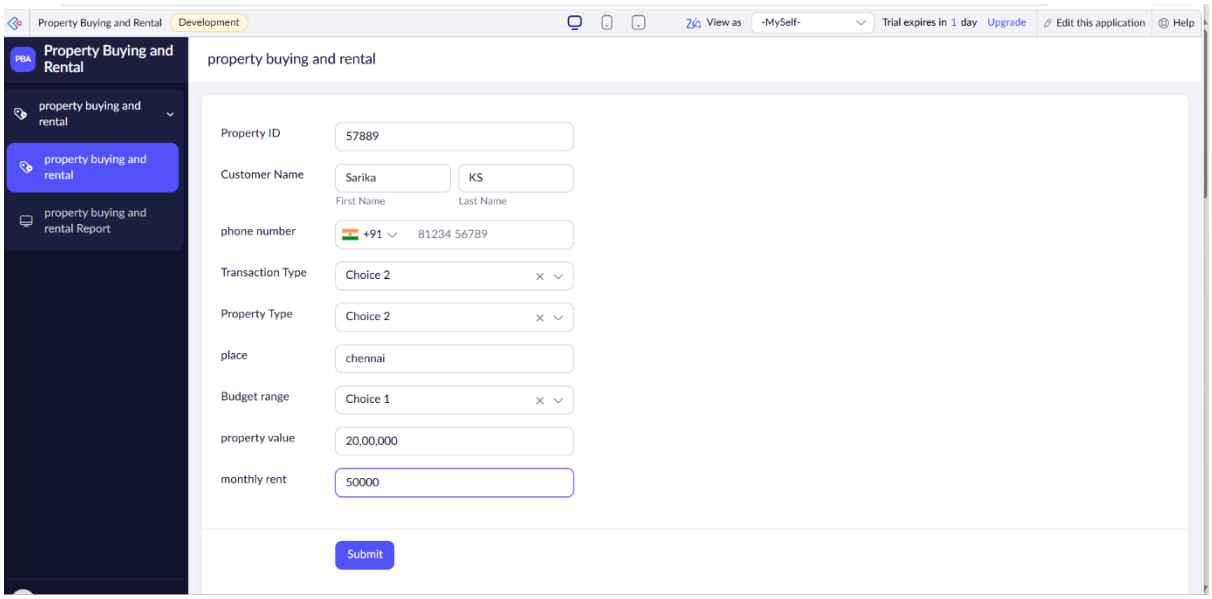

To create a simple cloud-based Property Buying and Rental System for Chennai city using Zoho Creator to demonstrate Software as a Service (SaaS).

PROCEDURE

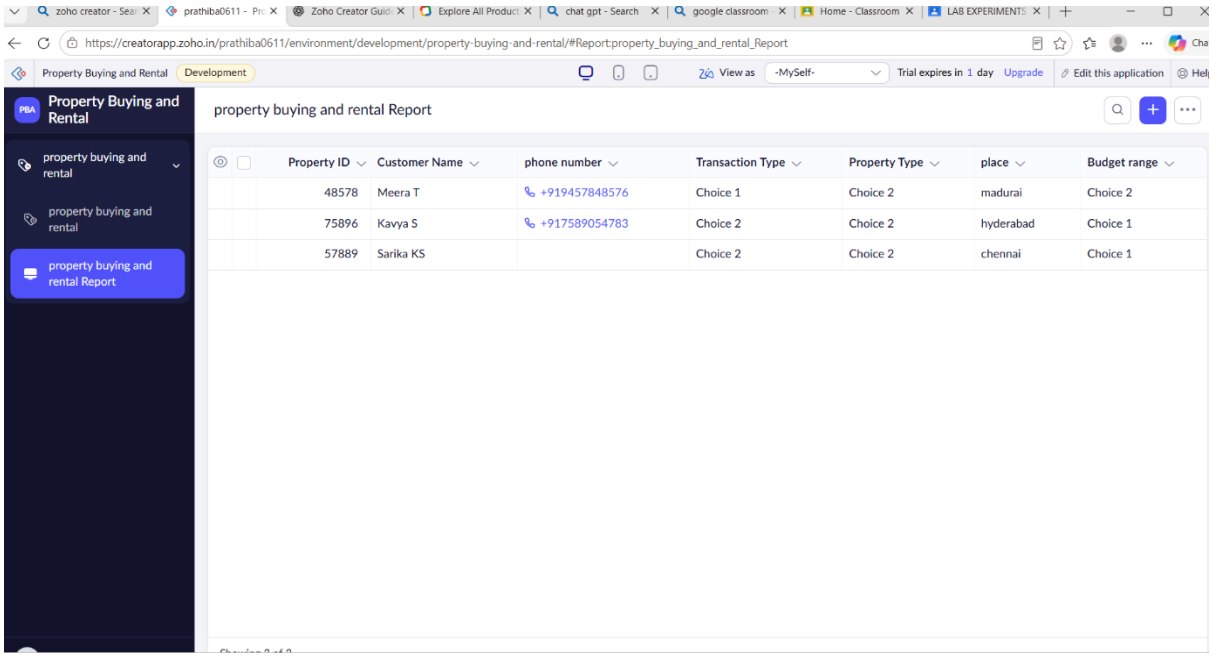

1. Open Zoho Creator and log in using a Zoho account.
2. Create a new application named **Chennai Property Buying and Rental System**.
3. Create a form named **Property Details**.
4. Add the required fields such as Customer Name, Phone Number, Transaction Type, Property Type, Area, Place, Budget Range, Property Value, Monthly Rent, Rental Agreement, and Availability Status.
5. Configure the Transaction Type dropdown with Buy and Rent options.
6. Configure the Property Type dropdown with Residential, Commercial, Apartment, Independent House, and Plot/Land options.
7. Add Chennai localities such as Velachery, Tambaram, Porur, Anna Nagar, and OMR in the Area field.
8. Configure the Budget Range dropdown with Below ₹25 Lakhs, ₹25–50 Lakhs, ₹50 Lakhs–₹1 Crore, and Above ₹1 Crore.
9. Configure the Rental Agreement dropdown with Required and Not Required options.
10. Save the form and create a table report named **Property Listings** to display the submitted property details.
11. Enter sample property details, submit the form, and verify that the records appear in the report.

IMPLEMENTATION

INPUT:

OUTPUT:

RESULT

Thus, a cloud-based Property Buying and Rental System for Chennai city was created using Zoho Creator, demonstrating the Software as a Service (SaaS) model
