EXPERIMENT 3: based Car Booking Reservation System

AIM

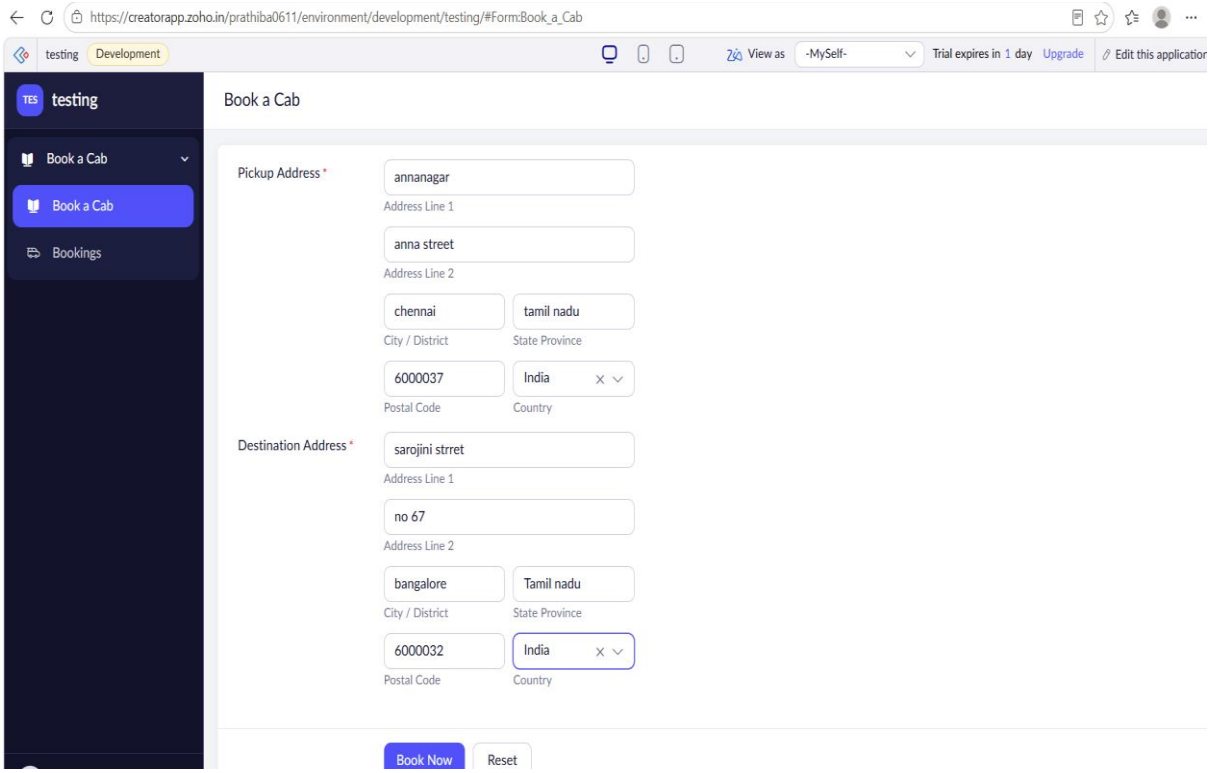

To create a simple cloud-based Car Booking Reservation System using Zoho Creator to demonstrate Software as a Service (SaaS).

PROCEDURE

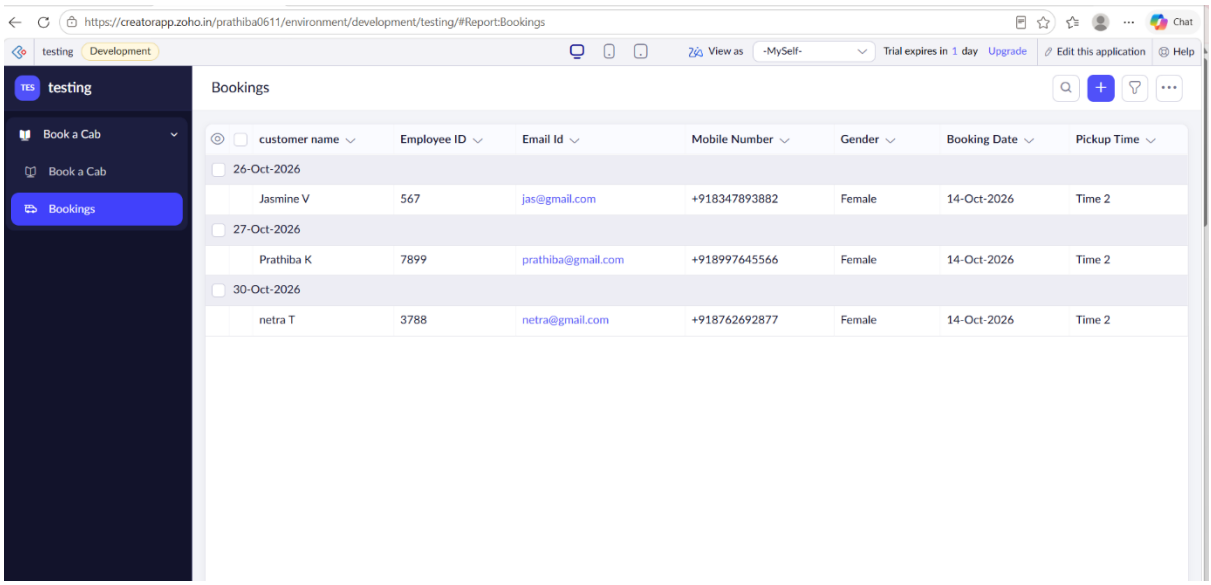

1. Open Zoho Creator and log in using a Zoho account.
2. Create a new application named **Car Booking Reservation System**.
3. Create a form named **Car Booking Reservation**.
4. Add the required fields such as Customer Name, Phone Number, From Location, To Location, Pickup Date, Rental Type, Package Type, Number of Hours/Days, Car Type, and Estimated Fare.
5. Configure dropdown fields with suitable options such as Local Rental, Outstation, 4 Hours, 8 Hours, Full Day, Hatchback, Sedan, and SUV.
6. Save the form and create a table report named **Car Booking Details** to display the submitted reservations.
7. Enter sample booking details and submit the form.
8. Verify that the booking records are stored and displayed in the report.

IMPLEMENTATION

INPUT:

OUTPUT:

RESULT:

Thus, a cloud-based Car Booking Reservation System was created using Zoho Creator, and its booking form and report were used to demonstrate the Software as a Service (SaaS) model.
